RE: Pagetown Curb Market

Dear Steve;

I enjoyed talking with you yesterday. As I told you, we discovered water mixed with Diesel Fuel in our 2000 UG tank at Pagetown Curb Market on Monday. The contractor said he could replace the tank on Monday April 10, 1989. There is also a bare steel 1000 Kerosene tank next to the Diesel, which I would like to remove at the same time. I will be putting in a 1000 STPH 3 for Kerosene and a 2000 STPH 3 for Diesel Fuel.

I appreciate your consideration on such short notice, so that we can find out if we have a problem.

I will report to you our findings. Thank you.

Sincerely,

EDEN OIL COMPANY, INC.

Reid Teague  
Sec.-Treas.
